Company Overview

IndiWork Global IT solution company entered the industry in 2002, and it was founded by a group of young entrepreneurs and seasoned professionals with a vision and energy to see unlimited solutions.

We have been building websites for several years now, and in that time we've learned trade inside and out. We've kept abreast of technology, and written our own custom applications to tailor to our clients requirements. Our goal at IndiWork is to give you, our customer, complete internet solutions.

We have developed, integrated, build and supported solutions that result in significant returns on investment for our clients, with a proven expertise in developing higher end web-based applications, and successfully executed different sizes of projects on various technologies. With our applications we are able to solve today's business challenges and are able to help our client's cut down their cost.

IndiWork pursues confident long-term business relations with its clients, in order to add value to the client business by enabling it to stay competitive and agile in today's global economy.

Business Values

Our mission is to provide scalable business solutions that allow companies to implement web sites and product launches with a minimal tie to market. We try our best to make our clients focus on marketing and selling of their products and services while rest assured that all back-end operations are seamlessly taken care of by us.

Vision

- ▶ **"One-Stop-Shop"** solution providers!
- ▶ Develop the **"RIGHT"** solution the **"FIRST TIME"**!
- ▶ **Train and empower** our clients to do their own updates.
- ▶ Build **"Customer Loyalty"** through excellent customer service and satisfaction.
- ▶ **Combine e-Strategy, Innovative, Methodology and Technology** to make solutions that work and **generate Return-On-Investment** for our clients!
- ▶ Our corporate **values** are Passion, Commitment, Integrity, Innovation, Teamwork, and Trust.
